

# LAKE SINCLAIR DRAWDOWN

## 2015

**Beginning Descent Date: October 18, 2015**

**Beginning Ascent Date: November 27, 2015**

(Expected to return to full pool 340' by December 1, 2015)

Lake elevation during the drawdown will fluctuate in the range of 336' – 334.5'. The lower lake elevation will typically be seen in the A.M. hours.

**Drawdown schedule is entirely weather related and conditions could change at any time.**

If you plan to have any work done on your waterfront (new, repair, replacements or excavation work) in the lake basin, please submit your request in writing. Permits must be issued by Georgia Power Company before any work can begin. Failure to acquire a permit will necessitate a work stoppage or delay. Permit requests can be submitted to the Land Management Office via U.S. Mail, fax or email beginning July 1, 2015. Email requests should be submitted as follows *(please contact Georgia Power Company and request your email address be added to our records):*

Baldwin/Hancock Counties (Guerry Brooks) – [gllbrooks@southernco.com](mailto:gllbrooks@southernco.com)

Putnam County (Sandra Hudson) – [sphudson@southernco.com](mailto:sphudson@southernco.com)
