Documents Required

Proposed subdivision Name: _____

Proposed Road Names:

1. _____
2. _____
3. _____
4. _____
5. _____

Major subdivision and site development. All plans must comply at minimum to the following list. Please see Chapter 75 ARTICLE VII Subdivisions Regulations for complete details at municode.com Please read and initial each to confirm compliance.

_____ A concept plan, drawn to scale, is required reflecting the conditions of the zoning approval, if any were so applied by the board of commissioners, and shall be submitted to and approved by the director prior to the submittal of any other drawings and documents.

_____ If no conditions of approval apply to the land on which the subdivision is proposed, the developer may choose to either meet with the director informally to discuss the concept of the subdivision or to submit an application for preliminary plat approval.

_____ The lots in the major subdivision must front on interior public or private road, which are to be designed according to article III, design standards, division 1, infrastructure requirements of this chapter.

_____ The preliminary plat and site development shall be prepared and sealed by a licensed land surveyor or professional engineer licensed in the State of Georgia,

_____ Scale of not more than one inch equals 200 feet, shall be prepared in ink, and the sheets shall be numbered in sequence and referenced to an index sheet if more than one is used. Such sheets as the preliminary plat is drawn upon shall be consistent with current engineering practices. Subdivision plat details shall conform to

the requirements of the state board of professional registration and the Plat Act.

Sec. 75-631. - Preliminary plat or site development application procedure.

The application shall include all of the following:

_____ A letter stating the general purpose and intent of the plat and a summary of the developer's intentions with respect to whether the streets will be public or private, the amount of open space proposed, the contemplated minimum lot sizes and floor areas of the structures, the amount and percent of lot coverage and any other aspect of the development the applicant chooses to express;

_____ The applicant shall state on the plat that it includes all of the applicant's ownership in that location, including any contiguous parcels owned by the applicant.

_____ Include the payment \$365

_____ Four preliminary plats [DIVISION 6. - SPECIFICATIONS OF DOCUMENTS](#)

_____ Include four copies of a traffic study.

_____ Letter of agency (if applicable)

_____ Complete application packet may be submitted at pdsubbmittals@putnamcountyga.us

The preliminary plat and site development shall be prepared and sealed by a licensed land surveyor or professional engineer licensed in the State of Georgia, at a convenient scale of not more than one inch equals 200 feet, shall be prepared in ink, and the sheets shall be numbered in sequence and referenced to an index sheet if more than one is used. Such sheets as the preliminary plat is drawn upon shall be consistent with current engineering practices. Subdivision plat details shall conform to the requirements of the state board of professional registration and the Plat Act.

Sec. 75-672. - Features.

The preliminary plat or site development shall show the following. *Please see Chapter 74 Article VII Subdivision Regulations for complete details at municode.com Please read and initial each to confirm compliance.*

_____ Name of the development. The applicant shall submit a proposed name for the subdivision or site.

_____ A notarized affidavit which includes the name, address and telephone number of the current legal owner or authorized agent of the property, and a citation of the last instrument conveying the title of each parcel of property involved in the proposed subdivision. This may not be applicable to a site development.

_____ Citation of any existing right-of-way or easements whether legal or in use by someone other than the property owner affecting the property.

_____ Provide existing covenants on the property, if any, and submit proposed covenants if so intended.

_____ Name and address, including the telephone number of the professional persons or firms responsible for the design, for design of public improvements and for surveys.

_____ Location of property by map and parcel numbers.

_____ Location of property lines, existing easements, burial grounds, historical sites, natural areas of aesthetic beauty or interest, railroad right-of-way, watercourses, wetlands, and floodplains.

_____ Location, width, type and name of all existing or platted streets or other public or private ways

Tel: 706-485-2776 ♦ 706-485-0552 fax ♦ www.putnamcountyga.com

_____ within or adjacent to the tract.

_____ Approximate location of future roads and their classification as may be shown on the Joint Putnam County/City of Eatonton Joint Comprehensive Plan.

_____ Name and locations of adjoining developments and current property owners.

_____ Locations and sizes of existing sewers, water mains, culverts, bridges or above and underground structures and aerial utilities within the tract and adjacent thereto.

_____ Approximate locations and sizes of existing permanent buildings and utility stations on the tract.

Sec. 75-673. - Proposed improvements for subdivisions and site developments. *Please see Chapter 28 Development Regulations for complete details at municode.com*

Please read and initial each to confirm compliance.

The following proposed improvements shall be indicated on preliminary plats and site plans: (Site developments need not comply with the items denoted by an asterisk (*) unless the Director deems it appropriate to require them.)

_____ * Location and pavement width of all proposed streets, easements, and other public and private ways, including rights-of-way.

_____ Require minimum building setback lines. Site developments shall show setbacks for all property lines.

_____ Locations, dimensions and areas in square feet of all proposed and existing lots. Site development plans shall be drawn to an engineering scale of one inch equals 200 feet (or as otherwise may be approved by the director) and showing all proposed improvements to the property, including but not limited to: buildings, parking, landscaping, lighting, stormwater detention, vehicular ingress and egress, total floor area and/or number of dwelling units, total land area, building coverage, and building height (in feet and floors). Development in the village zoning district may be required by the director to show more details related to the utilization of exterior spaces proposed adjacent to and among the proposed improvements.

_____ Total area of the subdivision/site development expressed in acres and decimals of an acre. If less than one acre, the area shall be described in square feet.

_____ Location and dimensions of all property proposed to be set aside for park or playground use, or other public dedication or private reservation, or landscaping with designation of purpose thereof. This is generally not required of a site development; however, it is required of developments within the village zoning district.

_____ Indications of all uses proposed by the applicant. If the site development is in the village zoning district, the floor area relationship between commercial and residential uses must be indicated.

_____ * Proposed names of all streets. The developer shall submit a list of alternate street names.

_____ * Blocks shall be consecutively numbered and lettered. The blocks in numbered additions to existing subdivisions bearing the same name shall be numbered and lettered consecutively throughout the various additions.

_____ * All lots in each block shall be numbered consecutively.

_____ If the subdivision or site development is to be developed in phases coincidental with ensuing development permits, the phases shall be shown and numbered consecutively.
